BIOLEARN
Inspired by Nature

1 Clarify:

What problem are you trying to solve?
What key functions do you need to develop?

2 Nature:

How does nature deliver the functions you are interested in?
What organisms can inspire your solution?

Value Proposition:

Who does your solution serve? How do they benefit?

4 Design:

What is your proposed solution?
What is critical to success?

3 Ideate:

What key features do you want to develop?
Which natural solutions are the best fit for you?
