W3.2 SPANISH SLUG: NIGHTMARE OF GARDENERS

How to control the Spanish slug?

- Which measures do you recommend? Give 3 to 5.
- What is the function of each of the measures?
- Does it have any advantages or disadvantages?

Fill in the chart:

Measure	Function	Advantages or disadvantages
Beer trap	attract them, and trap and catch them (in a container) to be moved	- : too many containers with beer needed - : rather expensive + : non-toxic

Look at all the measures once again, and rank them from best to worst; from the closest to nature to the ones that cause environmental damage, unnecessary pain, are too expensive or unsustainable.
