

## W7.1 APPLYING THE IDEA'S

During the presentations you have learned about the ideas of other groups. You have also heard about possible applications. Maybe some groups had the same model, or they had a very exciting plant or animal that intrigues you. Now you are going to learn from the other teams.

### Combining ideas

Sit together in groups of 4 (two pairs) and explain how you want to apply the wisdom of your model in practice. Now brainstorm together:

- a. Do you have more ideas?
- b. Can you combine ideas?
- c. Are there new fields of application?

	Model 1	Model 2
New ideas to learn from		
New fields of application
